Vessel/Sage (VS)

Points (H) 4.00-4.99, (L) 4.00-4.99

Influential, honorable, unassuming, wise, empowered

Overview - One who focuses on meeting other people's needs without expectation of recognition or personal benefit, and who knows how to successfully achieve goals using success principles.

Strengths - Serene, steady, compassionate, influential, confident, wise, patient, experienced, calm, knowledgeable, intelligent, sensible.

Driven by - Principle, serving others, subtlety, and having a long term life's purpose vision, focused on principles.

Combination Analysis - You're experienced in learning how to be unaffected by the unstable moods and opinions of others. You've accessed the power that comes through loss of self, of keeping your ego in check, and are evolving beyond the need to be seen.

While the Exemplar serves for the joy of making a difference, the Vessel serves mainly to fill a need. You find uncommon joy in doing hard things, and even if you are well known and respected, you are equally content to be of no public consequence. As you put others first in wisdom without compromising your own personal autonomy, you access a level of fulfillment and satisfaction that many will never find.

You are a compassionate and patient wellspring of healing for others who are inspired and changed by your confidence in true principles. You are generous yet wise in your interactions with others, long-suffering in outcomes, and trust that ultimate good can be realized out of any circumstance.

You are aware of the things that trigger you, but choose not to be controlled by them. Like a vessel bringing water to one who is thirsty, you participate in causes but are inclined to avoid recognition. After all, it is the water, not the vessel that quenches, is praised and appreciated, and you know your place in the grand scheme of things. You have become so others-focused that even the thrill of making a difference is no longer needed nor expected. The good news is that in living life unfettered in this way: clear in spirit and pure in heart, you will always have access to the rare rewards of true joy and serenity. You dwell in calmness beneath the tempests, and soar above the storms in stillness.

You have experience with intentional goal achievement, and make empowered decisions. You understand there are fewer risks more dangerous than a careless mindset. As mastering one's mindset can be a lifelong pursuit, your mindset type is among the most conscious of where you fall short.

Not only have you discovered the power of your thoughts, but you've learned to employ them intentionally for achieving sometimes seemingly impossible goals. You learn from your mistakes, and forge ahead courageously. You have experience with that rare kind of faith that causes things to happen—and whether you know it or not, you've likely participated in miracles.

Even if you can't see it, and even if the world doesn't know your name, you are beginning to live a legendary life. If you are not already wealthy, you are headed in a good direction. Going forward, look for evidence that the wealth you enjoy is directly related to the amount you need to accomplish the next step for your life's mission.

At the Exemplar/Sage stage of development, you do not measure success in dollars, but in influence and legacy. Your values and principles run like a thread through everything you do. You are a deep thinker, clever, creative, and intelligent. You show great knowledge and sense.

You are beginning to understand the laws of success, learning to rely on them to help you overcome every obstacle. You believe in unseen help and may be aware of experiencing its sometimes inexplicable assistance.

You are generous and pleasant. You hold other people in high regard. You move forward with faith, even if you don't see how the goal will be achieved. You're on track to mastering your mindset and will continue to achieve everything you set out to do, as you continue to choose goals that are aligned with your life's purpose or divine mission.

Possible Blind Spots - Despite how well you performed on the test, there is still room to grow. The minute you think you have achieved the pinnacle, you will begin

to decline, so always be about further learning and growth, or turn your focus to teaching and showing others how to enjoy for themselves what you have achieved. Help others achieve it more quickly by allowing them to learn from your experiences and mistakes. Don't become so refined that you are unwilling to share your errors, show your flaws, and how you overcame them. Because you've come this far having grown so much, individuals at this stage of development may struggle with being teachable.

One who grows beyond the Vessel/Sage stage of development will attest to the following:

"The more I learn, the more I realize how much I don't know." - Albert Einstein
